

CommClean™ Low Foam Cleaner A Non-Caustic Liquid Pressure Wash

WHAT IT DOES:

Commonwealth Oil's **CommClean™ Low Foam Cleaner** is a technologically advanced state of the art liquid pressure wash cleaner designed specifically for the removal of heavy grease and particulate soils without the use of dangerous alkalis. The synergistic combination of ingredients quickly and efficiently removes heavy grease and oils from all metal cleaning operations. Because **CommClean™ Low Foam Cleaner** contains no caustics or silicates, the product is safe to use on all metal surfaces. **CommClean™ Low Foam Cleaner** rinses easily leaving no residue. **CommClean™ Low Foam Cleaner** is the product of choice in today's safety conscience environment.

WHERE TO USE IT:

CommClean™ Low Foam Cleaner is used in high-pressure industrial spray washers such as Mart and Proceco. Also **CommClean™ Low Foam Cleaner** can be used in soak and tumbling applications. **CommClean™ Low Foam Cleaner** readily mixes with water when new cleaning solutions are made. Consult your Commonwealth Oil representative for further information.

CommClean™ Low Foam Cleaner is designed to be used at 2% by volume. This product is designed to be used at the rate of 2 - 3 ounces per gallon of water in high-pressure spray washers. Add product to water and mix to assure uniformity. When **CommClean™ Low Foam Cleaner** is used in soak applications for immersion cleaning of parts and equipment, concentration will generally range between 5 - 10 by volume at temperatures from 104 - 200°F.

PERFORMANCE BENEFITS:

CommClean™ Low Foam Cleaner is especially formulated to deliver the following performance benefits:

- No harmful alkalis
- Safe on all metals
- Residue free
