

WHAT IT DOES:

CommClean™ Process Cleaner is a concentrated liquid cleaner primarily intended for use in all multi-stage cleaning operations. It is especially suitable for use on all metals in both spray and soak applications.

WHERE TO USE IT:

CommClean™ Process Cleaner is best used keeping the following in mind:

- Excellent in-process rust protection.
- Low foaming, may be used at ambient or temperatures up to 60°C/140°F.
- **CommClean™ Process Cleaner** is normally recommended at a 20:1 dilution (5%), however, each individual application could vary the concentration used.

Storage and Handling

- Indoor storage, above freezing is preferred
- If frozen, allow to thaw and mix thoroughly
- For general safety, it is recommended that when handling an industrial grade cleaner, the operator should wear chemical resistant gloves and splash goggles

PERFORMANCE BENEFITS:

CommClean™ Process Cleaner is formulated to deliver the following benefits:

- Can be easily rinsed off with fresh water
- Non-flammable and non-toxic. It will not release toxic fumes
- Suitable for use on all metals and parts
- Low foaming
