

Commonwealth Oil

Commvan™ 108 Vanishing Oil

WHAT IT DOES:

Commonwealth Oil's **Commvan™ 108** is a low viscosity fluid primarily intended for light stamping and drawing of sheet metals. **Commvan™ 108** evaporates completely, leaving virtually no residues and no stains. **Commvan™ 108** is a very good choice for the manufacture of wires and stamp parts that require some painting or coatings, without first being cleaned.

WHERE TO USE IT:

Commvan™ 108 is ideal for applications such as:

- Light stamping and drawing of sheet metals
- Manufacture of wires and stamp parts that require painting or coating, without first being cleaned

PERFORMANCE BENEFITS:

Commvan™ 108 is especially formulated to deliver the following benefits and safety features.

Benefits:

- Non-corrosive and non-staining towards copper and aluminum
- Excellent EP/Anti-Wear Properties
- Provides good surface finishes
- Excellent rust inhibition

Safety Features:

- Light colour and very mild odor
- Contains no chlorinated paraffins or 1,1,1 Trichloroethane
- Low aromatic content
- No extra safety precautions are needed to perform normal working functions

TECHNICALLY SPEAKING:

Test	Commvan™ 108
Viscosity: cSt @ 40°C	2.1
Colour: ASTM	1.0
Residual Odour	Nil
Sulphur, PPM	< 1
Volatiles: %	96
Flash Point, COC °C	> 65.5
Flash Point, COC °F	> 149.9
Dry Point °C (°F)	200 (392)
Distillation: IBP °C (°F)	157 (314)
Density, lbs./US Gallon	6.676
Specific Gravity	0.800

These are typical figures and do not constitute a specification.

Handling & Safety Information

For information on the safe handling and use of this product, refer to the Material Safety Data Sheet obtainable from Commonwealth Oil Corporation.

Available in Pails, Drums and One-Way Bulk Containers
