

Commform™ Platinum Slip Biodegradable Concrete Form Release Oil

WHAT IT DOES:

Commonwealth Oil's **Commform™ Platinum Slip** is a petroleum based chemically active concrete form release fluid. **Commform™ Platinum Slip** virtually eliminates bug holes, is non-staining and offers easy release. **Commform™ Platinum Slip** is easy to apply and non-hazardous.

WHERE TO USE IT:

Commform™ Platinum Slip can be applied to steel, plastic, fiberglass and overlaid plywood forms in precast applications.

Commform™ Platinum Slip is applied by high and low pressure sprayers as well as other methods.

Directions for Use: Form surfaces should be clean and free from contaminants to ensure optimum performance of the release agent. For best appearance on formed concrete surfaces, apply a thin coating by using a roller, brush or sprayer. Wipe off any excess accumulation of release, as this condition may inhibit performance of release. Sprayer pressure should be no more than 60 PSI and proper spray tip should produce an oval pattern during application.

PERFORMANCE BENEFITS:

Commform Platinum Slip offers the following benefits:

- Non-hazardous
- Eliminates bug holes
- Non-staining
- Produces excellent surface finishes
- Low fogging and misting
- Low pour point - suitable for year round use
- Suitable for various precast and drycast concrete mixtures
- Ultimate biodegradation of 71% over 28 days by ASTM D5864

Precautions: At below freezing temperatures, release agent will thicken and reasonable care should be taken to maintain release thickness to ensure optimum performance.

Typical Coverage Rates: Rates may vary upon application or upon the medium used for forming.

TECHNICALLY SPEAKING:

Test	Commform™ Platinum Slip
Viscosity: cSt @ 40°C	6.0
Colour	Clear, colourless solution
Flash Point, COC °C	> 110
Flash Point, COC °F	> 230
VOC content (ASTM E1868-10)	180.7 g/L
Density, lbs./US Gallon	6.84
Specific Gravity	0.820
Pour Point (ASTM D97)	-45°C / -49°F
Biodegradability (ASTM D5864)	71% over 28 days

These are typical figures and do not constitute a specification.

Handling & Safety Information

For information on the safe handling and use of this product, refer to the Material Safety Data Sheet obtainable from Commonwealth Oil Corporation.
